## Why revise qualifications?

We work closely with schools, universities, and ministries to make sure our qualifications offer the best possible preparation for further study and employment. We review syllabuses on a regular basis so that the content is up to date, the assessment is appropriate, and our syllabuses remain highly regarded by universities and employers.

To help teachers plan ahead, we provide advance notice of changes to syllabuses at least one year before first teaching. We publish this guide twice a year and it includes details about the following types of changes.

### Set texts and set works

The words **SET TEXTS** next to a syllabus title indicate that the set texts in a syllabus have been updated. Set texts regularly change in syllabuses and many change from one year of examination to the next. Before you begin teaching, check the set text list in the syllabus for the year in which your candidates will take their examinations. This also applies to set works where the words **SET WORKS** indicate that the set works in a syllabus have been updated. You should fully check the updated syllabus, as there may be other changes in addition to the set texts or set works update.

### Revised syllabuses

These are syllabuses with significant changes following our review process. They may have revised content and assessment models, updated set texts or set works, new codes, or new titles.

### Republished syllabuses<sup>NEW SECTION</sup>

These are versions of syllabuses that have been republished for further years of assessment. When a syllabus is republished for further years of assessment, it may have updated set texts or set works or there may be minor updates to information in the syllabus.

### Updated syllabuses

These are updated versions of published syllabuses that have been amended with minor changes outside of our review process. The version number for the syllabus will have been updated as part of the amendment.

### New syllabuses

These are new subjects being offered for the first time, or syllabuses that have been revised and have new syllabus codes and titles.

### Withdrawn syllabuses

These are syllabuses that have been withdrawn and will no longer be available. Information will include the year of the last assessment of that qualification. The relevant syllabus page on our website will indicate if there is an alternative syllabus available, for example if a syllabus is being replaced by one with a new code.

## Information on series and availability

These syllabuses are either available in a particular series, or for a particular administrative zone, or are syllabuses where the series availability has changed.

## Other syllabus changes

Syllabuses with changes other than those listed above that schools should be aware of are grouped under this heading. For example, changes to the qualification design or assessment process.

Candidates will complete the question paper as they listen to the audio material, and at the end of the test they will be asked to transfer their responses to the separate answer sheet. Specimen papers, mark schemes, transcripts and audio material are available to allow you to practise this with candidates before the examination.

This change applies to:

- IGCSE Core English as a Second Language (0465) from 2024
- IGCSE/IGCSE (9–1) English as a Second Language (0510/0511/0991/0993) from 2024

## Changes to how to access early question papers and pre-release material

Please note that some early question papers and pre-release materials for examination are available to download from the School Support Hub. You should refer to the latest version of the syllabus and the *Cambridge Handbook* ahead of the release of materials for each following series.

The School Support Hub is password-protected. Please click on this link at the start of the test date window:

[www.cambridgeinternational.org/support-and-training-for-schools/support-for-teachers/school-support-hub/](https://www.cambridgeinternational.org/support-and-training-for-schools/support-for-teachers/school-support-hub/)

You must download the correct early question paper or pre-release material for the series you are entered for and/or time zone.

Please contact your school coordinator for instructions on how to access the School Support Hub. It is the responsibility of teachers to ensure that candidates are provided with the correct examination paper.

Please note that specimen assessment materials are provided as examples and must not be used for a live examination. All specimen materials are clearly marked as specimens.
