Cambridge Primary

The start of an exciting journey
Cambridge works with schools worldwide to build an education that shapes knowledge, understanding and skills.

Together, we give learners the confidence they need to thrive and make a positive impact in a changing world.
Helping learners to thrive in and outside the classroom, so that they are ready for the world.

Ready for the world.
Developing a love of learning

Cambridge Primary allows us to build a programme around what matters most to your child as they progress through their education:

• a broad curriculum for a balanced education
• a robust foundation with excellent progression
• a global perspective
• a flexible approach – fits into our school ethos and context
• an aligned programme – high-quality resources to support your child.

More than 2300 approved Cambridge Primary schools in over 120 countries
What will your child learn?

• A programme to stretch, challenge and inspire your child.
• Designed to engage students in their own learning, supported by resources and textbooks.
• All Cambridge Primary subjects include a set of learning objectives that provide a structure for teaching and learning, and a reference for us to check your child’s attainment and skills against.
• All subjects ensure a smooth progression throughout Cambridge Primary onwards into Cambridge Lower Secondary and beyond.
Flexible, meaningful assessments

With Cambridge Primary, we can monitor your child’s potential and progress to transform their learning:

- **Cambridge Primary Insight assessments** – gain deeper understanding of your child’s strengths, weaknesses and potential.
- **Classroom assessments** – discuss with your child ‘what went well’ and how to improve further.
- **Cambridge Primary Progression Tests** – understand learners’ strengths throughout the school year and areas where help is needed.
- **Cambridge Primary Checkpoint tests** – marked externally by Cambridge – taken in the final year.
Learning with lasting impact

A meaningful education is more than just building subject knowledge and conceptual understanding.

• To thrive, learners must also develop a broad range of skills, values, attitudes and behaviours.
• The programme develops reflective and innovative learners with confidence to embrace new information, ideas and challenges.
• Cambridge Primary will help your child become responsible and respectful of others and engaged intellectually and socially – ready to make a positive impact.
“Parents often share how curious and creative their kids have become, that they can’t stop talking about the sessions and how they look forward to their lesson, week after week.”

Snehlata Alphonso
JBCN International School, Borivali, India
