

Handling confidential materials we send you

Before each exam series, we send you confidential materials for individual components in blue question paper packets. Depending on the component, there are different regulations and below we explain how you must handle our confidential materials. There are general instructions for handling all questions papers for timetabled exams, as well as specific instructions for particular syllabuses and components.

Example of a question paper packet label

Handling question papers for all timetabled exams

- Before each timetabled exam, two members of staff should collect the question paper packet from secure storage.
- Before opening the packet, two members of staff must independently check it is undamaged.
- They must also check the details on the label are correct. This includes checking the centre number, exam date, session, subject title, syllabus and component number are correct.
- When the blue question paper packet is opened, the front cover of the question paper will be visible through the transparent inner bag. Two members of staff must again check that the day, date, time, subject and component are correct. They should make a final check to make sure that the inner packet has not been opened and is undamaged before opening it.
- If a packet is opened in error on the exam day, tell us straight away and complete and return **Exam Day – Form 11** so we can support you and maintain the security of the exam.
- For exams with large numbers of candidates, see sections 5.7.1.4 and 5.7.2.3 of the **Cambridge Handbook**.
- After the exam, store all question papers and answer booklets securely for 24 hours after the end of the exam or Key Time, whichever is later.
