Why revise qualifications?

We work closely with schools, universities and ministries to make sure our qualifications offer the best possible preparation for further study and employment. We review syllabuses on a regular basis so that the content is up to date, the assessment is appropriate and they remain highly regarded by universities and employers.

To help teachers plan ahead, we provide advance notice of changes to syllabuses at least a year before first teaching. We publish this guide every September, and it includes details about:

New syllabuses

New subjects or syllabuses that have been significantly revised **and/or** have new syllabus codes.

Revised syllabuses

Significant changes have been made to these syllabuses following our review process.

Updated syllabuses

These syllabuses are newer versions of published syllabuses or have been amended with minor changes outside of our review process.

Withdrawn syllabuses

These syllabuses have been withdrawn. The relevant syllabus page on our website will indicate if there is an alternative syllabus available, for example if a syllabus is being replaced by one with a new code.

Changes to availability

Availability changes include Administrative Zone restrictions or inclusions, or changes to the examination years (or series).

Other syllabus changes

These include syllabuses with changes other than those listed above. For example, changes to the design, regulatory status and the assessment materials.
