Cambridge Assessment International Education

Syllabus update: Cambridge O Level Computer Science (2210) for examination in 2020 and 2021

We have updated this syllabus. The latest syllabus is version 2, published April 2019.

What has changed?		Detail
i	**Other changes**	We have updated the advice about pre-release materials for Component 2. Teachers should check the *Cambridge Handbook* for the year candidates are taking the assessment for information on when the pre-release materials will be available and where to access the materials. Teachers may need access to the School Support Hub. Please contact your school coordinator for instructions on how to access the School Support Hub.

We have not updated the specimen materials for this syllabus.

Please check the updated syllabus for further information.

The syllabus has been updated. You are strongly advised to read the whole syllabus before planning your teaching programme.
