Team Project

With your support and guidance, learners work as a team (of three or four learners) to identify local issues, related to one of the programme topics that they would like to improve, change or resolve.

They explore different local perspectives about these issues in order to identify one issue to focus on. The team conducts research on their chosen issue which is used to set a goal to improve, change or resolve the local issue. The team then agree on a course of action to take which is likely to achieve this goal.

This course of action will be communicated in the Evidence of Action. Once the team have implemented the course of action, the learners in each team will collaboratively complete a Team Report. Each learner also produces a Personal Reflection, which is written independently.

The Team Project involves three pieces of work:

- Evidence of Action (8 marks) submitted as a team
- Team Report (6 marks) submitted as a team
- Personal Reflection (10 marks) submitted by each learner

In addition, learners will be assessed on their collaboration through teacher observation. Teachers award a mark for the team as a whole and for the contribution of each individual learner:

- Team observation (4 marks) mark for whole team
- Individual observation (4 marks) mark for each learner
