

# Globally recognised qualifications

Success in Cambridge qualifications opens doors to universities worldwide. Universities tell us they value the deep subject knowledge, independent research and critical thinking skills that Cambridge qualifications bring.

This guide summarises the key admissions requirements for study in popular destinations for Cambridge students. It also highlights some of the higher education institutions that recognise Cambridge qualifications.

For a more comprehensive list, search our recognition database at [www.cambridgeinternational.org/recognitionsearch](http://www.cambridgeinternational.org/recognitionsearch)

Please always check entry criteria with institutions before applying.

## Applying to university with Cambridge qualifications

### Key advice for students

- **Check admissions criteria before applying:** Admissions criteria vary between institutions and courses, and are subject to change. In countries such as the US and Canada, students with good grades in Cambridge qualifications may also be eligible for course credits or advanced standing, reducing the length and cost of their studies.
- **Confirm language requirements:** Students planning to follow an academic course delivered in English may have to demonstrate a specific level of English language proficiency as part of the admissions process. Cambridge qualifications are often accepted as evidence of such proficiency.
- **Research target destinations:** Students planning to study in a different country will also need to undertake detailed research into issues ranging from visa requirements to local culture.

Over **2000** institutions worldwide in 95 countries accept Cambridge qualifications

Over **825** US universities accept Cambridge qualifications, including all the Ivy League

All UK universities accept Cambridge qualifications

### Recognition search

Welcome to the recognition search page.

Our recognition database is an online directory of worldwide organisations which have specifically provided us with formal written acceptance of Cambridge qualifications. Although the database is updated regularly, this is not an exhaustive list.

There are many organisations not listed here which do accept Cambridge qualifications. The database is correct according to the information provided to us; however, we recommend checking with organisations directly for the most up-to-date information as regards entry requirements since these requirements are subject to change.

If you would like to see information about your organisation included in our recognition search results, please [register your recognition details](#).

Please note: We changed our name from Cambridge International Examinations to Cambridge Assessment International Education in September 2017. Recognition statements that refer to Cambridge International Examinations are valid for Cambridge Assessment International Education.
