

Statements of support from universities in destination countries

21 July 2020

Cambridge International has contacted a large number of universities to gauge their response to Cambridge International's methodology around the awarding of grades for the June 2020 examination series. This is a selection of responses we have received from universities. Some provided links to their websites and some provided direct responses to our recognition managers.

UK

Universities in the UK have indicated that Cambridge International AS & A levels from the June 2020 series will be accepted in the same manner as those from other series, and on an equivalent, grade-for-grade basis as GCE A Levels. For further guidance, please visit the university websites below. Please note this is not an exhaustive list but indicates some universities that have previously been popular with Cambridge International learners.

Statement from Russell Group universities on the 2020 exam grading system

The Russell Group of Universities welcomes the clarity provided by exam regulators and awarding bodies across the UK over how they will grade candidates who would have taken exams in A levels, AS levels, GCSEs, (including their International variants), Scottish Nationals, Highers/Advanced Highers and other qualifications such as the International Baccalaureate Diploma.

Students can rest assured that results provided through these processes will be treated exactly the same as in any other year by our members so learners can still progress to the university and course of their choice, subject to achieving the required grades. Applicants should liaise with individual universities for further guidance on their processes.

University of Cambridge

Cambridge Assessment International Education has published guidance on how their qualifications will be awarded this summer. As with UK/IB qualifications, we will be using these awarded results to confirm places in our normal way - if you meet all of the conditions of your firm offer with us, you will be accepted to the University.

However, we value these in the same way as those achieved in other years and will accept them for entry purposes to our undergraduate courses on an equivalent basis to other Cambridge International achieved grades.

Universidad del CEMA (UCEMA) – Cynthia Wilner, Academic Secretariat

Cambridge International's decision is impeccable; we are convinced that the priority is the health and wellbeing of the students. If the current and such exceptional and worrying situation that we are going through were to continue and if Cambridge continues to award grades in the next exams series, we will support them by recognizing the grades as if students had taken the traditional exam series.

Portugal

Statement of Support from the Directorate General for Higher Education (DGES) and the National Commission for Access to Higher Education (CNAES) in Portugal

The Portuguese Directorate General for Higher Education (DGES) and the National Commission for Access to Higher Education (CNAES) have approved the exceptional measures taken by Cambridge Assessment International Education to guarantee access to higher education in the academic year 2020-2021.

The international public health emergency caused by the disease COVID-19 determined the adoption of robust measures aimed at containing and mitigating the pandemic crisis. As a result of these decisions, in several foreign and international education systems, exceptional changes to the conditions for completing secondary education were approved, including the exemption from carrying out national assessment tests leading to the completion of that level of education.

This decree-law approves the exceptional measures taken by Cambridge Assessment International Education as a mitigation measure for the COVID-19 pandemic. Cambridge International AS and A Level certificates will therefore be recognised and accepted for access to higher education in Portugal in the academic year 2020-21.

FAST

Following are my responses to your queries:

Will you accept Cambridge International awarded grades from the June 2020 series in the same manner as those from previous series?

Yes. NUCES-FAST accepts grades assigned by various examining bodies, including Cambridge International. Cambridge International needs to decide what is acceptable to its students and other stakeholders.

Would you provide a statement of support that can be shared with the Cambridge schools community?

You can use this reply for sharing with your community.

A small number of private candidates may not be able to receive a grade. We do also run a November option for most syllabuses and so some learners may wish to defer assessment until then.

NUCES-FAST accepts applications for admission from candidates who have already taken the exam and are waiting for the result. Therefore, private candidates of A-level exam, who are not being assessed now, shall not qualify to apply for the admissions, which are expected in July 2020.

2. Final equivalency of complete A-level to be issue by IBCC should be at least of 60% as otherwise the admission of the individual will be cancelled.
3. Cambridge may adopt any mechanism to grade the student, we will be looking towards the Equivalency Certificate (mentioning equivalent marks) issued by IBCC as it is the only statutory body of the Country established for this purpose.

IVS, Karachi

IVS will accept all awarded grades as per the Cambridge's policy from the June 2020 series to meet the challenge of the COVID 19 crisis from all applicants for the admission intake for 2021.

In our opinion having gone through the curriculum, mode of delivery, selection of teachers by different schools, student body and continuous assessments and objective assessment system with or without examination under the guidelines and supervision of Cambridge University should be sufficient for our university especially keeping in mind the current circumstances prevailing in the entire globe and that would be something which can safeguard the interest of hardworking students and provide a reasonable alternate for the admitting universities.
