Why choose Cambridge International?

Cambridge International prepares school students for life, helping them develop an informed curiosity and a lasting passion for learning. We are part of the University of Cambridge.

Our Cambridge Pathway gives students a clear path for educational success from age 5 to 19. Schools can shape the curriculum around how they want students to learn – with a wide range of subjects and flexible ways to offer them. It helps students discover new abilities and a wider world, and gives them the skills they need for life, so they can achieve at school, university and work.

Our programmes and qualifications set the global standard for international education. They are created by subject experts, rooted in academic rigour and reflect the latest educational research. They provide a strong platform for learners to progress from one stage to the next, and are well supported by teaching and learning resources.

Our mission is to provide educational benefit through provision of international programmes and qualifications for school education and to be the world leader in this field. Together with schools, we develop Cambridge learners who are confident, responsible, reflective, innovative and engaged – equipped for success in the modern world.

Every year, nearly a million Cambridge students from 10 000 schools in 160 countries prepare for their future with the Cambridge Pathway.

‘We think the Cambridge curriculum is superb preparation for university.’
Christoph Guttentag, Dean of Undergraduate Admissions, Duke University, USA

Quality management

Cambridge International is committed to providing exceptional quality. In line with this commitment, our quality management system for the provision of international qualifications and education programmes for students aged 5 to 19 is independently certified as meeting the internationally recognised standard, ISO 9001:2015. 1 Why choose this syllabus?

Key benefits

Cambridge O Level is typically for 14 to 16 year olds and is an internationally recognised qualification. It has been designed especially for an international market and is sensitive to the needs of different countries. Cambridge O Level is designed for learners whose first language may not be English, and this is acknowledged throughout the examination process.

Our programmes balance a thorough knowledge and understanding of a subject and help to develop the skills learners need for their next steps in education or employment.

Cambridge O Level Sociology is accepted by schools, universities and employers as proof of knowledge and understanding. Successful Cambridge O Level Sociology candidates gain lifelong skills, including:

- a better understanding of how we become who we are
- the ability to analyse human behaviour within their own society, between different cultures and across different periods of time
- an appreciation of the effects that choice of methodology can have on social science investigations
- the ability to use sociological evidence and ideas to challenge their own beliefs and the beliefs of other people about issues such as equality, education, the family and crime.

Our approach in Cambridge O Level Sociology encourages learners to be:

Cambridge learner

Confident
Responsible
Engaged
Innovative
Reflective

‘Cambridge O Level has helped me develop thinking and analytical skills which will go a long way in helping me with advanced studies.’

Kamal Khan Virk, former student at Beaconhouse Garden Town Secondary School, Pakistan, who went on to study Actuarial Science at the London School of Economics
International recognition and acceptance

Our expertise in curriculum, teaching and learning, and assessment is the basis for the recognition of our programmes and qualifications around the world. The combination of knowledge and skills in Cambridge O Level Sociology gives learners a solid foundation for further study. Candidates who achieve grades A* to C are well prepared to follow a wide range of courses including Cambridge International AS & A Level Sociology.

Cambridge O Levels are accepted and valued by leading universities and employers around the world as evidence of academic achievement. Many universities require a combination of Cambridge International AS & A Levels and Cambridge O Levels or equivalent to meet their entry requirements.

2 Syllabus overview

Aims

The aims describe the purposes of a course based on this syllabus.

The aims are to:

- promote candidates' awareness, knowledge and understanding of human societies
- develop candidates' understanding of sociological methods, including the collection, analysis and interpretation of data
- provide an introduction to sociological concepts, theories and research findings
- stimulate awareness of the range and limitations of sociological theory and research
- promote candidates' understanding of continuity and change in social life
- encourage a critical awareness of social, economic and political processes, and their effects
- develop the capacity for critical evaluation of different forms of information and evidence
- promote an appreciation and understanding of individual, social and cultural diversity
- enhance candidates' ability to apply sociological knowledge and understanding to their own lives and their participation within society.

Cambridge Assessment International Education is an education organisation and politically neutral. The contents of this syllabus, examination papers and associated materials do not endorse any political view. We endeavour to treat all aspects of the exam process neutrally.

Assessment objectives

The assessment objectives (AOs) are:

AO1 Knowledge and understanding
Candidates should be able to:

• demonstrate knowledge and understanding of appropriate sociological topics
• understand the theoretical and practical considerations influencing the design and application of sociological enquiry
• understand and apply sociological terminology and concepts.

AO2 Interpretation of evidence
Candidates should be able to:

• demonstrate an awareness of the main methods of sociological enquiry and their uses
• interpret and apply relevant evidence and data
• show an awareness of different types and sources of evidence.

AO3 Analysis and evaluation
Candidates should be able to:

• evaluate the strengths and limitations of particular sociological studies and methods
• recognise limitations and bias in evidence and distinguish between fact, opinion and values
• reach conclusions based on a reasoned consideration of available evidence
• organise and present sociological evidence and arguments in a coherent and purposeful form.
Weighting for assessment objectives

The approximate weightings allocated to each of the assessment objectives (AOs) are summarised below.

3 Subject content

This syllabus gives you the flexibility to design a course that will interest, challenge and engage your learners. Where appropriate you are responsible for selecting topics, subject contexts, resources and examples to support your learners’ study. These should be appropriate for the learners’ age, cultural background and learning context as well as complying with your school policies and local legal requirements.

Paper 1

The content is organised into seven study units, which explore the nature of social relationships, processes and structures. The first unit provides a foundation for the other units of the syllabus by considering the methods and procedures employed in sociological research. Promoting candidates’ understanding of research methods and their limitations is a key component of the syllabus and this underpins each of the other study units.

Teachers should emphasise how different levels of social life (macro and micro) are interconnected and encourage candidates’ awareness of the interrelated nature of the social structure. Candidates will also be expected to recognise the significance of class, gender, ethnic and age differences within societies. Cross-cultural and historical comparisons, analysis and use of examples are encouraged.

The Cambridge O Level Sociology syllabus has been designed so that teachers in any society can apply candidates’ own experiences, local case studies and sociological work relating to their own way of life to an understanding of the central ideas and themes of sociology in modern industrial societies.

Paper 1 comprises three units, all of which are fundamental to the study of sociology and provide a foundation for studying the units in Paper 2. Candidates should study all three units in Paper 1

Unit 1: Theory and methods
This first unit provides a foundation for the other parts of the syllabus by considering the approaches and procedures used in sociological research. This provides a basis for understanding the uniquely sociological way of looking at society. It underpins and provides an understanding of each of the other study units.

(a) How do different sociologists interpret society?
- Structuralist and interpretivist approaches; the individual, identity and society.
- How different views (Functionalist, Marxist, feminist) on conflict and consensus create alternative perspectives.

(b) How do sociologists study society?
- The distinction between positivist and interpretivist approaches to research methods.
- The main steps in devising and implementing a research strategy: research aims, selection of topic, hypothesis setting and revision, pilot studies, sampling.
- Difficulties in implementing a research strategy.
- Ethical issues affecting the choice and implementation of a research strategy.
- The main methods used in sociological investigation: questionnaires/social surveys, interviews, experiments, case studies, longitudinal studies, participant and non-participant observation, content analysis and triangulation. Coverage should include the strengths and limitations of each method, assessment of their usefulness in sociological research and awareness of the types of evidence produced.
- The importance of analysing and evaluating research with reference to issues of validity, reliability, generalisability, representativeness and research/researcher bias.
(c) What types of information and data do sociologists use?

- The difference between primary and secondary data; the uses, strengths and limitations and value of each type of data.
- Qualitative and quantitative data. The strengths and limitations of qualitative sources including historical and personal documents, diaries and media content. The ability to interpret and evaluate evidence from short qualitative sources. The strengths and limitations of quantitative sources including official statistics. The ability to interpret data from diagrams, charts, graphs and tables.

Key terms

4 Details of the assessment

All candidates take Papers 1 and 2.

Paper 1

Written paper, 2 hours (including 15 minutes' reading time), 80 marks

Candidates answer two questions from a choice of three: one compulsory data response question from Section A and one optional structured question from either Section B or Section C. The duration of 2 hours includes 15 minutes' reading time.

The compulsory question in Section A is based on source material. The question carries 45 of the 80 marks for the paper. Candidates should spend approximately one hour answering this question. Section A tests Syllabus Unit 1 (Theory and methods).

Sections B and C consist of structured questions based on stimulus material. The stimulus will take the form of a short quotation or statement. Section B tests Syllabus Unit 2 (Culture, identity and socialisation) and Section C will test Unit 3 (Social inequality). Questions for Unit 2 and Unit 3 have five parts, focusing on understanding, practical interpretation, enquiry and analytical skills. There will be one question related to each of these units. Candidates are expected to have studied both units.

Paper 2

Written paper, 1 hour 45 minutes (including 15 minutes' reading time), 70 marks

Candidates answer two optional questions from a choice of four (Sections A to D). The duration of 1 hour 45 minutes includes 15 minutes' reading time.

Each question carries 35 of the 70 marks for the paper. Candidates should spend approximately 45 minutes answering each of the two questions.

Paper 2 consists of structured questions based on stimulus material. The stimulus will take the form of a short quotation or statement from a sociological source. Paper 2 tests Syllabus Unit 4 (Family), Unit 5 (Education), Unit 6 (Crime, deviance and social control) and Unit 7 (Media). Questions for Units 4 to 7 have five parts, focusing on understanding, practical interpretation, enquiry and analytical skills. There will be one question related to each of these units. Questions may also draw on knowledge from Unit 1.
5 What else you need to know

This section is an overview of other information you need to know about this syllabus. It will help to share the administrative information with your exams officer so they know when you will need their support. Find more information about our administrative processes at www.cambridgeinternational.org/eoguide

Before you start

Previous study
We do not expect learners starting this course to have previously studied Sociology.

Guided learning hours
We design Cambridge O Level syllabuses based on learners having about 130 guided learning hours for each subject during the course but this is for guidance only. The number of hours a learner needs to achieve the qualification may vary according to local practice and their previous experience of the subject.

Availability and timetables
All Cambridge schools are allocated to one of six administrative zones. Each zone has a specific timetable.

You can view the timetable for your administrative zone at www.cambridgeinternational.org/timetables

You can enter candidates in the June and November exam series.

Check you are using the syllabus for the year the candidate is taking the exam.

Private candidates can enter for this syllabus. For more information, please refer to the Cambridge Guide to Making Entries.

Combining with other syllabuses
Candidates can take this syllabus alongside other Cambridge International syllabuses in a single exam series. The only exceptions are:

• Cambridge IGCSE™ Sociology (04751)
• syllabuses with the same title at the same level.

Cambridge O Level, Cambridge IGCSE and Cambridge IGCSE (9–1) syllabuses are at the same level.
Making entries

Exams officers are responsible for submitting entries to Cambridge International. We encourage them to work closely with you to make sure they enter the right number of candidates for the right combination of syllabus components. Entry option codes and instructions for submitting entries are in the Cambridge Guide to Making Entries. Your exams officer has a copy of this guide.

Exam administration

To keep our exams secure, we produce question papers for different areas of the world, known as administrative zones. We allocate all Cambridge schools to one administrative zone determined by their location. Each zone has a specific timetable. Some of our syllabuses offer candidates different assessment options. An entry option code is used to identify the components the candidate will take relevant to the administrative zone and the available assessment options.

Support for exams officers

We know how important exams officers are to the successful running of exams. We provide them with the support they need to make your entries on time. Your exams officer will find this support, and guidance for all other phases of the Cambridge Exams Cycle, at www.cambridgeinternational.org/eoguide

Retakes

Candidates can retake the whole qualification as many times as they want to. Information on retake entries is at www.cambridgeinternational.org/entries

Equality and inclusion

We have taken great care to avoid bias of any kind in the preparation of this syllabus and related assessment materials. In our effort to comply with the UK Equality Act (2010) we have taken all reasonable steps to avoid any direct and indirect discrimination.

The standard assessment arrangements may present barriers for candidates with impairments. Where a candidate is eligible, we may be able to make arrangements to enable that candidate to access assessments and receive recognition of their attainment. We do not agree access arrangements if they give candidates an unfair advantage over others or if they compromise the standards being assessed.

Candidates who cannot access the assessment of any component may be able to receive an award based on the parts of the assessment they have completed.

Information on access arrangements is in the Cambridge Handbook at www.cambridgeinternational.org/eoguide

Language

This syllabus and the related assessment materials are available in English only.
After the exam

Grading and reporting
Grades A*, A, B, C, D or E indicate the standard a candidate achieved at Cambridge O Level.

A* is the highest and E is the lowest. ‘Ungraded’ means that the candidate’s performance did not meet the standard required for grade E. ‘Ungraded’ is reported on the statement of results but not on the certificate.

In specific circumstances your candidates may see one of the following letters on their statement of results:
- Q (PENDING)
- X (NO RESULT).
These letters do not appear on the certificate.

On the statement of results and certificates, Cambridge O Level is shown as GENERAL CERTIFICATE OF EDUCATION (GCE O LEVEL).

How students and teachers can use the grades
Assessment at Cambridge O Level has two purposes:

• to measure learning and achievement
  The assessment:
  – confirms achievement and performance in relation to the knowledge, understanding and skills specified in the syllabus, to the levels described in the grade descriptions.

• to show likely future success
  The outcomes:
  – help predict which students are well prepared for a particular course or career and/or which students are more likely to be successful
  – help students choose the most suitable course or career.

Grade descriptions
Grade descriptions are provided to give an indication of the standards of achievement candidates awarded particular grades are likely to show. Weakness in one aspect of the examination may be balanced by a better performance in some other aspect.

Grade descriptions for Cambridge O Level Sociology will be published after the first assessment of the syllabus in 2020. Find more information at www.cambridgeinternational.org/2251
Changes to this syllabus for 2023 and 2024

We have updated the look and feel of this document. The subject content remains the same, with some small additions detailed below.

Minor changes to the wording of some sections have been made to improve clarity.

This is version 1, published September 2020.

You must read the whole syllabus before planning your teaching programme.

Changes to syllabus content

In section 3 Subject content, we now refer to ‘the changing roles of men and women’ in Unit 3 Social inequality (see page X) and have added the key term ‘same-sex family’ to Unit 4 Family (see page X).

Significant changes to the syllabus are indicated by black vertical lines either side of the text.

Any textbooks endorsed to support the syllabus for examination from 2016 are still suitable for use with this syllabus.
While studying Cambridge IGCSE and Cambridge International A Levels, students broaden their horizons through a global perspective and develop a lasting passion for learning.
