1.2 Why choose Cambridge O Level?
Cambridge O Level is typically for 14 to 16 year olds and is an internationally recognised qualification. It has been designed especially for an international market and is sensitive to the needs of different countries. Cambridge O Level is designed for learners whose first language may not be English, and this is acknowledged throughout the examination process.

Our aim is to balance knowledge, understanding and skills in our programmes and qualifications to enable students to become effective learners and to provide a solid foundation for their continuing educational journey.

Through our professional development courses and our support materials for Cambridge O Levels, we provide the tools to enable teachers to prepare students to the best of their ability and work with us in the pursuit of excellence in education.

Cambridge O Levels are considered to be an excellent preparation for Cambridge International AS & A Levels, the Cambridge AICE (Advanced International Certificate of Education) Diploma, and other education programmes, such as the US Advanced Placement program and the International Baccalaureate Diploma programme. Learn more about Cambridge O Levels at www.cambridgeinternational.org/olevel

Guided learning hours
Cambridge O Level syllabuses are designed on the assumption that learners have about 130 guided learning hours per subject over the duration of the course, but this is for guidance only. The number of hours required to gain the qualification may vary according to local curricular practice and the students’ prior experience of the subject.
1.3 Why choose Cambridge O Level Fashion & Textiles?

Cambridge O Levels are established qualifications that keep pace with educational developments and trends. The Cambridge O Level curriculum places emphasis on broad and balanced study across a wide range of subject areas. The curriculum is structured so that candidates attain both practical skills and theoretical knowledge.

Cambridge O Level Fashion & Textiles is accepted by universities and employers as proof of knowledge and understanding. By following this theoretical and practical syllabus, candidates cover a range of topics including:

- Use of fabrics, style and choice of clothing
- Use of patterns, fitting and assembling garments
- How to care for clothing.

The aim is to develop candidates’ creative and aesthetic awareness, stimulating an enjoyment in the creative use of textiles. Candidates develop the practical skills essential for further study, which will also last a lifetime. Through their studies, candidates also develop a discriminating and informed approach to the making of clothes, learning how to assess suitability and recognise quality, in the context of fashion and textiles.

Prior learning

Candidates beginning this course are not expected to have studied fashion and textiles previously.

Progression

Cambridge O Level Certificates are general qualifications that enable candidates to progress either directly to employment, or to proceed to further qualifications.

Candidates who are awarded grades A* to C in Cambridge O Level Fashion & Textiles are well prepared to follow courses leading to Cambridge International AS and A Level Design and Textiles, or the equivalent.

6. Coursework

6.1 Coursework guidance notes

Notes for the guidance of teachers/examiners

1. Examiners should make themselves familiar with the syllabus and regulations governing the examinations. They should also read with care the instructions and other information that is sent to centres.

2. Ministry centres will have been informed that the examiner will arrange a convenient date for the assessment of the coursework. The centre must be given ample warning (at least 10 days) of the date of this visit.

3. Two items must be shown, each with a folder giving details of the planning which was required before making the items.

Centres are asked to avoid the use of pins and display techniques that make it difficult for the examiner to inspect the work.

Coursework guidance

Coursework

Candidates produce two fashion items, each accompanied by a folder of supporting evidence:

- Item 1 – one fashion garment and folder
- Item 2 – one fashion accessory and folder

Suggested list of task titles:

**Fashion item (garment):** (choose one from this list for Item 1)

1. Design and make a skirt showing the use of tie and dye, etc.
2. Design and make a dress for a special occasion which is decorated with machine stitching, etc.
3. Design and make a pair of shorts which have decorated pockets, etc.

**Fashion accessories:** (choose one from this list for Item 2)

1. Design and make a bag with a batik design or quilted design suitable for a holiday.
2. Design and make a scarf which has a silk painted design based on the study of a natural form such as shells, etc.
3. Design and make a belt which uses recycled materials or ribbon and beads for decoration.

---

1 (words in italics can be changed to suit local conditions)
Example project outline

Task: A summer dress for a teenager showing use of appliqué, based on research into a fashion designer who uses a design source such as flowers

Investigation of task, including research
E.g. research into main points of the task including sketched styles of dresses based on the study of one fashion designer; research into types of flower shapes which could be used for appliqué designs; types of suitable fabrics/colours, etc. This section could be limited to 2 or 3 A4 sized pages.

Development of design/item proposal and decision for final idea
E.g. fashion sketches showing different styles of dresses and where the appliqué would be positioned; experiments with different fabrics, different shapes for appliqué, different flower shapes. Creative skills are to be encouraged. This section could have a limit such as 3 × types of experimental work.

Plan of practical work including decisions of resources to be used for final idea
E.g. final proposal for item and a plan of work in logical order, including decisions/reasons for choice of fabrics, pattern alterations, layout, components to be used, etc. This section could have a limit of 2 × A4 pages.

Completed textile item
E.g. high quality of work should be encouraged so the choice of final item must be in line with amount of time available during the course to complete the item to the required standard. Both hand and machining skills should be included as appropriate.

Evaluation of final item
E.g. comments on how the final item relates back to the task title; was the item successfully completed and were there any difficulties, were processes and techniques carried out to a high standard, was the item pressed throughout the making process, etc.

Communication (use of subject-specific terminology)
E.g. appropriate use of specialist vocabulary throughout the folder.

Additional comments for consideration
- The project titles could be amended according to local conditions/availability. Centres could write their own task or use/amend the task titles listed above. (Task titles could be checked with Cambridge International.)
- Two items allow for more variety of fabrics, skills and processes to be used.
- A wide range of different skills/processes should be shown in the two items.
- List of suitable skills/processes are to be selected from the syllabus content (application of colour, processes and decoration and embellishment).
- It is suggested that item 1 is produced in year 1 of the course and item 2 is produced in year 2 of the course.
- It is recommended that the garment made for item 1 is made to fit the candidate – this should include a pattern alteration/adaptation (which shows an additional skill) – details of how this was carried out should be included in the folder.
- Folder to have a soft cover and A4 or A3 size page would be acceptable. All pages securely fastened.
- The marks awarded for this component will be in High, Middle and Low bands.
- Marking by teachers and Moderation by Cambridge International (for Non-Ministry centres only).
Moderation (for Non-Ministry centres only)

**Internal moderation**
When more than one teacher is making internal assessments in a centre, the centre must make arrangements for all candidates’ work to be assessed to a common standard. Instructions and timescales for all other centres making estimated entries are in the Cambridge Handbook, available on our website.

The internally moderated marks for all candidates must be recorded on the Summary Coursework Assessment Form. This form, and the instructions for completing it, may be downloaded from www.cambridgeinternational.org/samples. The database will ask you for the syllabus code (i.e. 6130) and your centre number, after which it will take you to the correct form. Follow the instructions when completing the form.

**External moderation**
External moderation of internal assessment is carried out by Cambridge International.

Centres must submit the internally assessed marks of all candidates to Cambridge International.

Centres must also submit the internally assessed work of a sample of candidates to Cambridge International. The Cambridge Handbook available on our website, provides details of which candidates are to be included in the sample.

The deadlines and methods for submitting internally assessed marks and work are in the Cambridge Handbook available on our website.

Information about re-submission of coursework samples and about carrying forward internally assessed marks can be found in the Cambridge Handbook.

Each piece of work should be clearly and securely labelled with:

- the centre number
- the candidate’s name and number
- the item number
- the mark awarded.
6.2 Marking of coursework

Candidates submit two items, each accompanied by a folder of supporting evidence. The maximum mark available for each item is 40.

20 marks are available for each folder, as shown in Part 1.

20 marks are available for each item, as shown in Part 2.

The total mark for the coursework component is 80.

<th>Marks</th>
<th>Criteria</th>
</tr>

<tbody>
<tr>
<td>4 to 5</td>
<td>The folder includes relevant drawings/sketches that show a range of design ideas. There is detailed evidence of a variety of experimental textile work which illustrates how the design ideas could be developed. The folder includes evidence of creative skills and a range of relevant processes used.</td>

The folder includes some evidence of creative skills and some relevant processes used.</td>
</tr>
<tr>
<td>1</td>
<td>The folder includes few relevant drawings/sketches and limited design ideas. There is limited evidence of different experimental textile work which is generally not relevant to the task. The development of ideas is very limited. The folder includes limited evidence of creative skills and few relevant processes used.</td>

### Plan of work for final idea including decisions of resources to be used

<table>
<thead>
<tr>
<th>Marks</th>
<th>Criteria</th>

<td>The candidate produces a detailed and logical plan of the work. The plan includes a realistic schedule for making the item and key stages are identified. Decisions and choices are fully justified.</td>
</tr>
<tr>
<td>2 to 3</td>
<td>The candidate produces a workable plan of the work that may lack some details or may not be in a logical order. The plan includes a schedule for making the item, but it may lack some details and key stages may not be identified. Not all decisions and choices are fully justified.</td>

<tr>
<th>Marks</th>
<th>Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 to 5</td>
<td>The candidate carries out a detailed assessment of the strengths and weaknesses of the finished item. The candidate evaluates the quality of the stitching (machine/hand) and the finish on all processes, both on the right side and the wrong side of the item. The candidate comments on the appropriateness of the fabric used and on the processes used. The evaluation includes a comment on the choice of components in terms of their appropriateness for the fabrics used and the style of the finished item. The candidate comments on the use and effectiveness of the decorative processes chosen. The folder includes a comment relating to the pressing of the finished item.</td>
</tr>
<tr>
<td>2 to 3</td>
<td>The candidate makes some assessment of the strengths and weaknesses of the finished item. This may include a brief overall conclusion on the quality of the stitching (machine/hand) and the finish on most of the processes, both on the right side and the wrong side of the item, but there may be some omissions. There may be brief comments on whether the fabric was suitable for the style and processes chosen. There may be brief comments on the use of components, decorative processes and pressing of the finished item.</td>
</tr>
<tr>
<td>1</td>
<td>The candidate makes a limited assessment of the strengths and weaknesses of the finished item. The comments about stitching (machine/hand) are limited and the candidate makes few comments on the use of processes, maybe omitting to mention both the right side and the wrong side. The candidate makes limited comments on the use of fabrics, components, decorative processes or pressing.</td>

Accessibility and equality

Syllabus and assessment design

Cambridge International works to avoid direct or indirect discrimination in our syllabuses and assessment materials. We aim to maximise inclusivity for candidates of all national, cultural or social backgrounds and with other protected characteristics. In addition, the language and layout used are designed to make our materials as accessible as possible. This gives all learners the opportunity, as fairly as possible, to demonstrate their knowledge, skills and understanding and helps to minimise the requirement to make reasonable adjustments during the assessment process.

Access arrangements

Access arrangements (including modified papers) are the principal way in which Cambridge International complies with our duty, as guided by the UK Equality Act (2010), to make ‘reasonable adjustments’ for candidates with special educational needs (SEN), disability, illness or injury. Where a candidate would otherwise be at a substantial disadvantage in comparison to a candidate with no SEN, disability, illness or injury, we may be able to agree pre-examination access arrangements. These arrangements help a candidate by minimising accessibility barriers and maximising their opportunity to demonstrate their knowledge, skills and understanding in an assessment.

Important:

- Requested access arrangements should be based on evidence of the candidate’s barrier to assessment and should also reflect their normal way of working at school; this is in line with The Cambridge Handbook www.cambridgeinternational.org/eoguide
- For Cambridge International to approve an access arrangement, we will need to agree that it constitutes a reasonable adjustment, involves reasonable cost and timeframe and does not affect the security and integrity of the assessment.
- Availability of access arrangements should be checked by centres at the start of the course. Details of our standard access arrangements and modified question papers are available in The Cambridge Handbook www.cambridgeinternational.org/eoguide
- Please contact us at the start of the course to find out if we are able to approve an arrangement that is not included in the list of standard access arrangements.
- Candidates who cannot access parts of the assessment may be able to receive an award based on the parts they have completed.

Language
This syllabus and the associated assessment materials are available in English only.

Making entries
Exams officers are responsible for submitting entries to Cambridge International. We encourage them to work closely with you to make sure they enter the right number of candidates for the right combination of syllabus components. Entry option codes and instructions for submitting entries are in the Cambridge Guide to Making Entries. Your exams officer has a copy of this guide.

Exam administration
To keep our exams secure, we produce question papers for different areas of the world, known as administrative zones. We allocate all Cambridge schools to one administrative zone determined by their location. Each zone has a specific timetable. Some of our syllabuses offer candidates different assessment options. An entry option code is used to identify the components the candidate will take relevant to the administrative zone and the available assessment options.

Retakes
Candidates can retake the whole qualification as many times as they want to. This is a linear qualification so candidates cannot re-sit individual components

Grading and reporting
Cambridge O Level results are shown by one of the grades A*, A, B, C, D or E, indicating the standard achieved, A* being the highest and E the lowest. ‘Ungraded’ indicates that the candidate's performance fell short of the standard required for grade E. ‘Ungraded’ will be reported on the statement of results but not on the certificate. The letters Q (pending) and X (no result) may also appear on the statement of results but not on the certificate.

How students and teachers can use the grades
Assessment at Cambridge O Level has two purposes:

- to measure learning and achievement
  The assessment:
  - confirms achievement and performance in relation to the knowledge, understanding and skills specified in the syllabus, to the levels described in the grade descriptions.

- to show likely future success
  The outcomes:
  - help predict which students are well prepared for a particular course or career and/or which students are more likely to be successful
  - help students choose the most suitable course or career.
