Additional exam materials list

November 2023 series

UK Version 2

The additional exam materials list is updated before each series. You should make sure you only use the list for the relevant exam series and year.

This list is valid for any exam in the November 2023 exam series where candidates require additional exam materials. This PDF list will tell you:

- which additional materials candidates need in the exam
- which additional materials you need to provide
- which additional materials we provide
- whether candidates should answer directly on the question paper, on multiple-choice answer sheets or on an answer booklet provided as an insert in the question paper.

The 'Additional Materials' section on the front covers of question papers will say: 'You will need:'. This will list what the candidate needs, and will include items we provide such as an answer booklet, an insert or a map. It will also include the **extra** exam materials that you need to provide to the candidate **in addition** to the standard materials that all candidates need.

Calculators are **no longer** listed in this document as additional exam materials for mathematics components. See 'Materials candidates must provide' below.

How to use the additional exam materials list
Use the bookmarks in this PDF to find the qualification, syllabus and component you need. You can download and print this additional exam materials list, but you should look out for any updates before the start of the exam series. We will let you know in the Exams officers eNewsletter if we update the additional exam materials list. Make invigilators aware of the information and have a copy of this list available in the exam room.

Materials you must provide
You need to provide all candidates with the following materials for each exam:

- writing paper/answer booklets unless the list states that candidates should answer on the question paper or multiple-choice answer sheets, or if an answer booklet has been provided as an insert in the question paper

- rough paper. You should ask candidates to cross through any rough work neatly and to hand it in with their answer scripts.

- for some mathematics papers, candidates may have been taught using tracing paper for transformations. Where this is the case you should provide candidates with tracing paper.

Materials candidates must provide
Candidates need to provide the following materials for each exam:
- their own pens (permanent, non-erasable dark blue or black ink for international centres and black ink only for UK centres), pencils, drawing instruments (including rulers) and erasers

- for all science components: a calculator, 300 mm ruler, protractor, set square and pair of compasses

- for mathematics components: a calculator. **Please note** calculators are **not** allowed for the following components:

  - 0444 IGCSE Mathematics (US), components 1 and 2
  - 0607 IGCSE Cambridge International Mathematics, components 1 and 2
  - 4024 Cambridge O Level Mathematics (Syllabus D), component 1
  - 0862 Cambridge Lower Secondary Mathematics, component 1
  - 0096 Cambridge Primary Mathematics, component 1

It is essential that you make sure that candidates do not bring any unauthorised materials into the exam room. See section 5.1.7 of the Cambridge Handbook for further guidance on this.

Materials not covered by the additional exam materials list
The additional exam materials list does not cover the following:

- specific materials for use in science exams. You will find these in the relevant syllabus booklet or in the confidential instructions that come with the question papers

- details of the maps supplied for Cambridge IGCSE Geography components. These are sent together with the question papers

- the standard materials the centre needs to record speaking and listening tests such as CDs

- requirements for coursework components

- references to accounting paper, music paper and A2/A3 drawing paper or technical drawing equipment. The instructions on the front of the specific question paper state whether these materials are needed.

Calculators
Candidates may use calculators in exams unless the relevant syllabus and the front of the question paper state that calculators are prohibited.

PLEASE NOTE: Calculators are **not** allowed for certain mathematics components. See the 'Materials candidates must provide' section at the top of this page.

If the syllabus or the front of the question paper do not state that calculators are prohibited or do not mention calculators, candidates can use a calculator if they want to.

Invigilators should check a sample of the candidates' calculators before the start of the exam to make sure they comply with our regulations in section 5 of the Cambridge Handbook.

For Associate Centres we may, in consultation with the relevant Cambridge Associate, issue specific local regulations for the use of calculators. Where this happens, the local regulations will override any other regulations.

Refer to section 5.1.6.1 of the Cambridge Handbook for further guidance.

Dictionaries

Electronic dictionaries are **not** allowed in any exam. This includes tablets and e-readers.

- **Cambridge O Level, Cambridge International AS & A Level and Cambridge Pre-U**

  Dictionaries are not allowed in these exams, except where specifically permitted by the syllabus

- **Cambridge IGCSE and Cambridge IGCSE (9–1)**

  Simple translation dictionaries are allowed, except in language exams or where they are specifically prohibited in the syllabus. 'Simple translation dictionary' means a dictionary that only translates the word and does not give a translation of the meaning or definition of the word

- **Cambridge Primary Checkpoint and Cambridge Lower Secondary Checkpoint**

  Simple translation dictionaries are allowed in science and mathematics tests. They are **not** allowed in English and English as a Second Language tests.
