## Why revise qualifications?

We work closely with schools, universities, and ministries to make sure our qualifications offer the best possible preparation for further study and employment. We review syllabuses on a regular basis so that the content is up to date, the assessment is appropriate, and our syllabuses remain highly regarded by universities and employers.

To help teachers plan ahead, we provide advance notice of changes to syllabuses at least one year before first teaching. We publish this guide twice a year and it includes details about the following types of changes.

#### Set texts and set works

The words SET TEXTS next to a syllabus title indicate that the set texts in a syllabus have been updated. Set texts regularly change in syllabuses and many change from one year of examination to the next. Before you begin teaching, check the set text list in the syllabus for the year in which your candidates will take their examinations. This also applies to set works where the words SET WORKS indicate that the set works in a syllabus have been updated. You should fully check the updated syllabus, as there may be other changes in addition to the set texts or set works update.

#### New and revised syllabuses

These include new subjects being offered for the first time, as well as existing syllabuses that have been significantly revised. This can include updated content, assessment models, set texts or set works, syllabus codes, or titles.

### Withdrawn syllabuses

These are syllabuses that have been withdrawn and will no longer be available. Information will include the year of the last assessment of that qualification. The relevant syllabus page on our website will indicate if there is an alternative syllabus available, for example if a syllabus is being replaced by one with a new code.

#### Republished syllabuses

These are versions of syllabuses that have been republished for further years of assessment. When a syllabus is republished for further years of assessment, it may have updated set texts or set works or there may be minor updates to information in the syllabus.

#### Syllabuses updated after publication

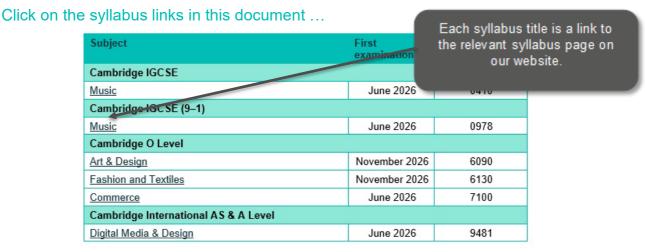

These are updated versions of published syllabuses that have been amended with minor changes outside of our review process. The version number for the syllabus will have been updated as part of the amendment.

#### **Availability**

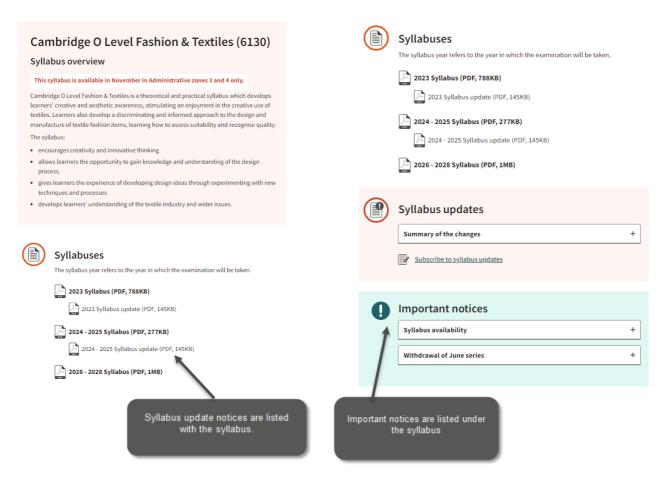

This section includes information about the availability for syllabuses, including series and administrative zone availability, as well as information about changes to availability.

#### Other useful information

Syllabuses with changes other than those listed above that schools should be aware of are grouped under this heading. For example, changes to the assessment process.

...to take you to the syllabus page on our website. There you will find further information about your syllabus. Full details of all changes are listed in the syllabus.

# 1 New and revised syllabuses

We have made significant changes to these syllabuses following our review process and based on feedback from schools, universities, and ministries.

#### Guidance to candidates on coursework titles

As part of teaching you should give guidance and feedback to candidates on whether their coursework, essay or project title is suitable. For guidance on developing suitable titles for coursework, essays or projects go to our School Support Hub at <a href="https://www.cambridgeinternational.org/support">www.cambridgeinternational.org/support</a>

For further information, see the *Cambridge Handbook* for the relevant year of assessment at <a href="https://www.cambridgeinternational.org/eoguide">www.cambridgeinternational.org/eoguide</a>

# Information about carrying forward coursework marks in AS & A Level subjects

We have clarified our policy about carrying forward coursework marks in AS & A Level subjects. The policy is explained in the relevant sections of our **Carry-forward regulations supplement for Exams Officers and centre staff**.

## Specimen paper updates

When a correction or update is made to a specimen paper, there will be a syllabus update notice which will give more information.

# Changes to how to access early question papers and pre-release material

Please note that some early question papers and pre-release materials for examination are available to download from the School Support Hub. You should refer to the latest version of the syllabus and the *Cambridge Handbook* ahead of the release of materials for each following series.

The School Support Hub is password-protected. Please click on this link at the start of the test date window:

<u>www.cambridgeinternational.org/support-and-training-for-schools/support-for-teachers/school-support-hub/</u>

You must download the correct early question paper or pre-release material for the series you are entered for and/or time zone.

Please contact your school coordinator for instructions on how to access the School Support Hub. It is the responsibility of teachers to ensure that candidates are provided with the correct examination paper.

Please note that specimen assessment materials are provided as examples and must not be used for a live examination. All specimen materials are clearly marked as specimens.
