1 Why choose this syllabus?

Key benefits

Cambridge IGCSE is the world’s most popular international qualification for 14 to 16 year olds, although it can be taken by students of other ages. It is tried, tested and trusted.

Students can choose from 70 subjects in any combination – it is taught by over 4500 schools in over 140 countries.

Our programmes balance a thorough knowledge and understanding of a subject and help to develop the skills learners need for their next steps in education or employment.

**Cambridge IGCSE French** develops a set of transferable skills for understanding and communicating in everyday situations in French. Learners begin to develop cultural awareness of countries and communities where French is spoken. They acquire the essential linguistic skills required for progression to further studies or employment.

Our approach in Cambridge IGCSE French encourages learners to be:

- **confident**, using new and familiar structures and vocabulary to communicate with others in everyday situations
- **responsible**, seeking opportunities to use and develop their language skills
- **reflective**, considering how to communicate different ideas and attitudes
- **innovative**, applying language to a variety of situations
- **engaged**, developing learning strategies which help them to express their ideas and their understanding of other cultures.

School feedback: ‘The strength of Cambridge IGCSE qualifications is internationally recognised and has provided an international pathway for our students to continue their studies around the world.’

Feedback from: Gary Tan, Head of Schools and CEO, Raffles International Group of Schools, Indonesia
International recognition and acceptance

Our expertise in curriculum, teaching and learning, and assessment is the basis for the recognition of our programmes and qualifications around the world. The combination of knowledge and skills in Cambridge IGCSE French gives learners a solid foundation for further study. Candidates who achieve grades A* to C are well prepared to follow a wide range of courses including Cambridge International AS & A Level French.

Cambridge IGCSEs are accepted and valued by leading universities and employers around the world as evidence of academic achievement. Many universities require a combination of Cambridge International AS & A Levels and Cambridge IGCSEs or equivalent to meet their entry requirements.

UK NARIC*, the national agency in the UK for the recognition and comparison of international qualifications and skills, has carried out an independent benchmarking study of Cambridge IGCSE and found it to be comparable to the standard of the GCSE in the UK. This means students can be confident that their Cambridge IGCSE qualifications are accepted as equivalent to UK GCSEs by leading universities worldwide.

Cambridge IGCSE French has been designed to help candidates develop language proficiency to level A2 (Basic User) with some elements of proficiency at level B1 (Independent User) of the Common European Framework of Reference for Languages: Learning, Teaching, Assessment (CEFR).

Assessment objectives, subject content, mark schemes and task types have been designed with reference to the CEFR to ensure that candidates have opportunities to demonstrate proficiency at the intended levels.

* Due to the United Kingdom leaving the European Union, the UK NARIC national recognition agency function was re-titled as UK ENIC on 1 March 2021, operated and managed by Ecctis Limited. From 1 March 2021, international benchmarking findings are published under the Ecctis name.

Cambridge Assessment International Education is an education organisation and politically neutral. The contents of this syllabus, examination papers and associated materials do not endorse any political view. We endeavour to treat all aspects of the exam process neutrally.
Content overview

The subject content is organised in five broad topic areas (A–E below). These provide contexts for the acquisition of vocabulary and the study of grammar and structures. The study of these topic areas enables students to gain an insight into countries and communities where French is spoken. The five topic areas listed below are described in more detail in section 3.

A  Everyday activities  
B  Personal and social life  
C  The world around us  
D  The world of work  
E  The international world

The syllabus gives students opportunities to develop and apply a wide range of foreign language skills.

Candidates will be expected to read and understand a variety of written and spoken texts on familiar topics. Candidates will be required to demonstrate understanding of the main ideas, opinions and attitudes, as well as select and extract relevant details and deduce the meaning of occasional unknown words from context.

They will also have opportunities to write in French on familiar, everyday topics, and to speak the language by taking part in everyday conversations.
Assessment overview

All candidates take all four papers. Candidates will be eligible for grades A* to G.

At the end of the test candidates will be asked to transfer their answers onto the separate answer sheet.

Centres must check the *Cambridge Handbook* for the year candidates are taking the assessment. The *Cambridge Handbook* tells you when and how to access the audio material for each examination series. [www.cambridgeinternational.org/eoguide](http://www.cambridgeinternational.org/eoguide)

Teachers/invigilators must consult the relevant sections of the *Cambridge Handbook* about administering the listening examination and for details about rooms, equipment, guidance on acoustics and checking the audio material in advance.

Paper 3 – Speaking

Approximately 10 minutes (plus 10 minutes of preparation time), 40 marks

Each speaking test lasts approximately 10 minutes, and is structured as follows:

• a warm-up section which is not assessed (approximately 30 seconds)
• one role play – candidates respond to five transactional questions to, for example, accomplish a task or obtain goods or services (approximately two minutes)
• two topic conversations – candidates respond to questions on each topic to share views, opinions and experiences (four minutes per topic conversation).

Both the role play and the topic conversations are set in predictable, everyday contexts and are based on the topic areas outlined in the syllabus.

During the preparation time, candidates study a role play scenario provided on a candidate card. They must be supervised under exam conditions. Candidates are not allowed to make notes.

The tests are conducted and marked by the teacher/examiner using the speaking assessment materials and assessment criteria provided. They are moderated by Cambridge International.

Speaking tests take place before the main examination series (see the relevant series’ timetable). Before the speaking test period, centres will receive materials for the test. Teachers/examiners must allow sufficient time to familiarise themselves with the materials and procedures (see the Cambridge Handbook for details).

Cambridge International supplies a teacher/examiner booklet comprising instructions, assessment criteria and teacher/examiner scripts for the role plays and topic conversations. Candidate cards containing the role play scenarios are also supplied. The teacher/examiner booklet is confidential and must not reach candidates either directly or indirectly at any point. The candidate cards are confidential and must not reach candidates until the start of their 10 minutes of preparation time immediately prior to their speaking test.

The teacher/examiner allocates a role play and two topic conversations to each candidate according to a randomisation grid provided in the teacher/examiner booklet.
Administration of the speaking test

Further information about the administration of speaking tests is provided in the *Cambridge Handbook* for the relevant year of assessment. For copies of the forms required for the speaking test as well as information about the deadlines, sample size and methods of submission, please refer to the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)

Using the samples database

The samples database refers you to key information about administering speaking tests.

Use the database to find out:
- when and how to submit your marks for the speaking tests
- when and how to submit the speaking tests
- which forms to complete and submit with the speaking tests.

The samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples) will ask you for:
- your country/territory
- the syllabus code (i.e. 0520 for this syllabus).

The database will then take you to the information you need, including dates and methods of submission of candidates’ marks and work, as well as any forms you may need to complete.

Cover sheets

You should upload a completed cover sheet with the speaking tests that you submit to Cambridge International. Download the cover sheet from the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples). Follow the instructions on the form itself to complete it.

Recording and submitting candidates’ marks and speaking tests

Please refer to the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples) for information, dates and methods of submission of candidates’ marks and speaking tests. You should follow the instructions on the samples database.

You should record marks on the required form which you should download each year from the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples). Follow the instructions on the form to complete it. The marks on this form must be identical to the marks you submit to Cambridge International.

Internal moderation

If more than one teacher in your centre is marking internal assessments, you must make arrangements to moderate or standardise your teachers’ marking so that all candidates are assessed to a common standard. (If only one teacher is marking internal assessments, no internal moderation is necessary.) You can find further information on the process of internal moderation in the *Cambridge Handbook* and on the samples database for the relevant year of assessment.

You should record the internally moderated marks for all candidates on the required Working Mark Sheet and submit these marks to Cambridge International according to the instructions on the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)
External moderation
Cambridge International will externally moderate all internally assessed components.

External moderators will produce a short report for each centre with feedback on your marking and administration of the assessment.

Guidance on using levels-based mark schemes
Marking of work should be positive, rewarding achievement where possible, but clearly differentiating across the whole range of marks, where appropriate.

The marker should look at the work and then make a judgement about which level statement is the best fit. In practice, work does not always match one level statement precisely so a judgement may need to be made between two or more level statements.

Once a best-fit level statement has been identified, use the following guidance to decide on a specific mark:

- If the candidate’s work convincingly meets the level statement, award the highest mark.
- If the candidate’s work adequately meets the level statement, award the most appropriate mark in the middle of the range (where middle marks are available).
- If the candidate’s work just meets the level statement, award the lowest mark.

Vocabulary list

The vocabulary list provided is intended as a guide for teachers to assist in the planning of lessons and schemes of work. It is not intended to be prescriptive or exhaustive and the assessment tasks will require students to understand and respond to words (and/or forms of words) that are not on the list.

Although the skill of deduction is not directly tested, students should be taught the skill of deducing the meaning of unknown words from the context on familiar topics.

Vocabulary is listed under particular topic headings but should be considered transferable, as appropriate, to the other topics.

Students are expected to be familiar with plural and feminine forms of nouns and adjectives where these are not given.

The list reflects the spelling rules at the time of publication for French. Examiners will accept both versions of the spellings affected by the reform, i.e. old and new.

5 What else you need to know

This section is an overview of other information you need to know about this syllabus. It will help to share the administrative information with your exams officer so they know when you will need their support. Find more information about our administrative processes at www.cambridgeinternational.org/eoguide

Before you start

Previous study

We recommend that learners starting this course should have studied a French curriculum such as the Cambridge Lower Secondary programme or equivalent national educational framework.

Guided learning hours

We design Cambridge IGCSE syllabuses to require about 130 guided learning hours for each subject. This is for guidance only. The number of hours a learner needs to achieve the qualification may vary according to each school and the learners’ previous experience of the subject.

Availability and timetables

All Cambridge schools are allocated to one of six administrative zones. Each zone has a specific timetable.

You can view the timetable for your administrative zone at www.cambridgeinternational.org/timetables

You can enter candidates in the June and November exam series. If your school is in India, you can also enter your candidates in the March exam series.

Check you are using the syllabus for the year the candidate is taking the exam.

Private candidates can enter for this syllabus. For more information, please refer to the Cambridge Guide to Making Entries.

Combining with other syllabuses

Candidates can take this syllabus alongside other Cambridge International syllabuses in a single exam series. The only exceptions are:

- Cambridge IGCSE (9–1) French (7156)
- Cambridge O Level French (5020)
- syllabuses with the same title at the same level
- this syllabus must not be offered in the same series with Cambridge IGCSE First Language French (0501).

Cambridge IGCSE, Cambridge IGCSE (9–1) and Cambridge O Level syllabuses are at the same level.

Group awards: Cambridge ICE

Cambridge ICE (International Certificate of Education) is a group award for Cambridge IGCSE. It allows schools to offer a broad and balanced curriculum by recognising the achievements of learners who pass exams in a range of different subjects.

Learn more about Cambridge ICE at www.cambridgeinternational.org/cambridgeice
Making entries
Exams officers are responsible for submitting entries to Cambridge International. We encourage them to work closely with you to make sure they enter the right number of candidates for the right combination of syllabus components. Entry option codes and instructions for submitting entries are in the Cambridge Guide to Making Entries. Your exams officer has a copy of this guide.

Audio materials
The Cambridge Handbook tells you when and how to access the audio material for each examination series.
www.cambridgeinternational.org/eoguide

Exam administration
To keep our exams secure, we produce question papers for different areas of the world, known as administrative zones. We allocate all Cambridge schools to an administrative zone determined by their location. Each zone has a specific timetable. Some of our syllabuses offer candidates different assessment options. An entry option code is used to identify the components the candidate will take relevant to the administrative zone and the available assessment options.

Support for exams officers
We know how important exams officers are to the successful running of exams. We provide them with the support they need to make your entries on time. Your exams officer will find this support, and guidance for all other phases of the Cambridge Exams Cycle, at www.cambridgeinternational.org/eoguide

Retakes and carrying forward marks
Candidates can retake the whole qualification as many times as they want to. Information on retake entries is at www.cambridgeinternational.org/retakes

Candidates cannot resubmit, in whole or in part, speaking tests from a previous series for remarking.

Marks achieved in Paper 3 Speaking cannot be carried forward to future series. See the regulations for carry forward set out in the Cambridge Handbook at www.cambridgeinternational.org/eoguide

Language
This syllabus is available in English only. The assessment materials are in French.

Accessibility and equality
Syllabus and assessment design
Cambridge International works to avoid direct or indirect discrimination. We develop and design syllabuses and assessment materials to maximise inclusivity for candidates of all national, cultural or social backgrounds and candidates with protected characteristics; these protected characteristics include special educational needs and disability, religion and belief, and characteristics related to gender and identity. In addition, the language and layout used are designed to make our materials as accessible as possible. This gives all candidates the fairest possible opportunity to demonstrate their knowledge, skills and understanding and helps to minimise the requirement to make reasonable adjustments during the assessment process.
Access arrangements

Access arrangements (including modified papers) are the principal way in which Cambridge International complies with our duty, as guided by the UK Equality Act (2010), to make ‘reasonable adjustments’ for candidates with special educational needs (SEN), disability, illness or injury. Where a candidate would otherwise be at a substantial disadvantage in comparison to a candidate with no SEN, disability, illness or injury, we may be able to agree pre-examination access arrangements. These arrangements help a candidate by minimising accessibility barriers and maximising their opportunity to demonstrate their knowledge, skills and understanding in an assessment.

Important:

・ Requested access arrangements should be based on evidence of the candidate’s barrier to assessment and should also reflect their normal way of working at school; this is in line with the Cambridge Handbook
  [www.cambridgeinternational.org/eoguide](http://www.cambridgeinternational.org/eoguide)
・ For Cambridge International to approve an access arrangement, we will need to agree that it constitutes a reasonable adjustment, involves reasonable cost and timeframe and does not affect the security and integrity of the assessment.
・ Availability of access arrangements should be checked by centres at the start of the course. Details of our standard access arrangements and modified question papers are available in the Cambridge Handbook
  [www.cambridgeinternational.org/eoguide](http://www.cambridgeinternational.org/eoguide)
・ Please contact us at the start of the course to find out if we are able to approve an arrangement that is not included in the list of standard access arrangements.
・ Candidates who cannot access parts of the assessment may be able to receive an award based on the parts they have completed.
・ Some access arrangements are not allowed in this syllabus because they affect the assessment objectives:
  - candidates are not allowed to use voice-activated software to dictate their written work
  - candidates are not allowed to use word processing technology which uses word prediction and/or phrase prompting
  - candidates are not allowed to use human readers.

After the exam

Grading and reporting

Grades A*, A, B, C, D, E, F or G indicate the standard a candidate achieved at Cambridge IGCSE.

A* is the highest and G is the lowest. ‘Ungraded’ means that the candidate’s performance did not meet the standard required for grade G. ‘Ungraded’ is reported on the statement of results but not on the certificate.

In specific circumstances your candidates may see one of the following letters on their statement of results:

・ Q (PENDING)
・ X (NO RESULT).
These letters do not appear on the certificate.

On the statement of results and certificates, Cambridge IGCSE is shown as INTERNATIONAL GENERAL CERTIFICATE OF SECONDARY EDUCATION (IGCSE).
How students and teachers can use the grades

Assessment at Cambridge IGCSE has two purposes:

1. to measure learning and achievement
   The assessment confirms achievement and performance in relation to the knowledge, understanding and skills specified in the syllabus, to the levels described in the grade descriptions.

2. to show likely future success
   The outcomes help predict which students are well prepared for a particular course or career and/or which students are more likely to be successful.
   The outcomes help students choose the most suitable course or career.

Grade descriptions

Grade descriptions are provided to give an indication of the standards of achievement candidates awarded particular grades are likely to show. Weakness in one aspect of the examination may be balanced by a better performance in some other aspect.

Grade descriptions for Cambridge IGCSE French will be published after the first assessment of the syllabus in 2022.
Changes to this syllabus for 2025, 2026 and 2027

The syllabus has been updated. This is version 2, published May 2023.

You must read the whole syllabus before planning your teaching programme. We review our syllabuses regularly to make sure they continue to meet the needs of our schools. In updating this syllabus, we have made it easier for teachers and students to understand, keeping the familiar features that teachers and schools value.

Changes to version 2 of the syllabus, published May 2023

| Changes to syllabus content | • Changes have been made to p.52 Access Arrangements. Please refer to pages 51 and 52 for information relating to accessibility. |

Any textbooks endorsed to support the syllabus for examination from 2021 are still suitable for use with this syllabus.
