Reducing file sizes using HandBrake

The maximum file size for a single multimedia video file is 500 MB. Video files must not be larger than 500 MB. The quality of the video files does not need to exceed 720p (1280 x 720 or 16:9 aspect ratio).

For all files larger than 500 MB, you must use HandBrake ([https://handbrake.fr](https://handbrake.fr)) to reduce file sizes before uploading them to Secure Exchange. This will reduce the time it takes to upload the files.

For example, HandBrake can convert a video file that is 551 MB to 43.5 MB in approximately 3 minutes and 20 seconds, which will allow you to upload the file to Secure Exchange quickly.

**Important information**

You will need administrator rights on your PC/laptop to install HandBrake. If you do not have administrator rights, the installation will fail. Please contact your centre’s IT department so they can give you these rights, or install the software for you.

**Step 1** Go to [https://handbrake.fr/downloads.php](https://handbrake.fr/downloads.php) and select the correct platform for your operating system. Follow the on-screen instructions and install HandBrake.

**Step 2** Open HandBrake and select ‘File’ from the toolbar.

**Step 3** Locate your video file on your PC/laptop and click ‘Open File’. You will see the file you are converting listed next to the ‘Source’ heading.

**Step 4** Under ‘Save As’, select ‘Browse’ and choose a location for your new file. Enter a file name and click ‘Save’.

**Step 5** Select ‘Presets’ and then select ‘General’ and ‘Fast 720p30’ from the preset list.

**Step 6** Click ‘Start Encode’ to start the compression. Depending on your computer’s speed and size of the file, this operation could take several minutes.

If you have multiple videos to compress, you can queue your files using the ‘Add to Queue’ button. HandBrake will convert all the files you have added to the queue.

**Step 7** You can note the progress of your upload at the bottom of the application window, as shown below:

**Step 8** When your files have been compressed, check that they play correctly before uploading them to Secure Exchange.
