November 2024 series

- Make sure each piece of work in your internally assessed sample is clearly identified with your centre number, the candidate number, the syllabus and component. You can use the 'Coursework identification labels' we send in your pre-exam despatch. You can also download them from www.cambridgeinternational.org/forms (*Coursework and Moderation – Label 3*).
- For Art & Design syllabuses, use this identification label:
 - Cambridge IGCSE (0400) and Cambridge IGCSE (9–1) (0989) – Label 1a.
- Check that you have enough exam stationery. Details of the items you need for each exam are in the additional exam materials list, available at www.cambridgeinternational.org/beforetheexams.
- You have a one-day window to conduct practical tests for:
 - Cambridge IGCSE ICT (0417)
 - Cambridge IGCSE (9–1) ICT (0983/02, 03)
 - Cambridge International AS & A Level Information Technology (9626).

Please see the November 2024 timetable for details. The data files for each practical test will be available to download three days before the test from the Digital File Despatch area of our website.

- **A** Data files for Cambridge Associates will be available five days before the test to allow time to distribute the files to Associate Centres. We will provide detailed instructions about running these tests in the *Cambridge Exams Officer eNewsletter*.
- Collect and keep all unused question papers, answer booklets and any other confidential exam material in a secure place until at least 24 hours after the end of the exam or Key Time, whichever is later. After this time you can dispose of the unused question papers or you can return them to candidates/centre staff if the Head of Centre agrees. You must return question papers for Cambridge IGCSE ICT practical tests with your candidates' work. For more information please see section 5.3.2 of the *Cambridge Handbook*.
- Keep Test Cards and Teachers' Notes for speaking tests in a secure place until the end of the speaking test window shown in the timetable.
- Send your scripts to us as soon as each exam has finished. Check the contents of the script packet against the bar-coded script packet label to make sure they match. The script packet must contain a script for each candidate who is ticked as present on the attendance register, and the scripts should be in candidate number order with the attendance register on top. Do not include any other documents in your script packets.
- We must receive special consideration applications within seven days of the last exam of the syllabus affected.
