

## Pre-exam despatch guide June series

### What is the pre-exam despatch?

This despatch contains most of the materials you will need for the June series, including exam stationery, key administrative documents, despatch labels and script packets.

You will receive two other despatches for the June series: one containing confidential question papers and the other containing bar-coded labels for timetabled components. These despatches will arrive with you by the end of April.

### What materials are provided in this despatch and what do I do with them?

The despatch contains a number of different items depending on the syllabuses and components you have made entries for. The 'At a glance table' over the page lists all the items, along with a brief description of how to use them and an indication of the number of copies you should have.

### Extra guidance

You can view our 'Packing and despatching samples' video at [www.cambridgeinternational.org/courseworkandmoderation](http://www.cambridgeinternational.org/courseworkandmoderation)

### What do I do now?

- Carefully check the contents of the despatch. If you are missing any items or need more copies please contact us as soon as possible. Remember, the materials in your despatch are based on your final entries. You will receive materials you need for any late entry amendments or retake entries separately.
- Submit your forecast grades using Cambridge International Direct (know as Direct) by the deadline in the [Cambridge Handbook](#). If you cannot submit them electronically please complete the enclosed Forecast grade forms (F1) and return them using the envelope provided.
- You need to send us marks and samples for your internally assessed components. Visit our samples database ([www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)) to check the requirements for specific components. Once you have done this:
  - Submit your marks through CIE Direct by the dates shown in the samples database. If you cannot submit them electronically, complete the enclosed Internal Assessment Mark Sheets (MS1) and return them using the envelope provided.
  - Label each piece of work included in your sample using the enclosed identification labels.
  - Place the samples for each internally assessed component in separate script return packets. Each packet should also include a copy of your internally assessed marks for that component and your completed forms (available from the samples database). Attach the correct bar-coded label to each packet.
  - Place your packets in an outer package. You can place packets for different internally assessed components in the same outer package. Stick the enclosed address labels to each outer package.
  - Send your samples using a method that provides a tracking facility (e.g. a courier) by the dates shown in the samples database. Keep a record of your courier details.
- Before the start of the exam period, display the 'Notice to Candidates' and 'Candidate Warning' posters outside and inside your exam rooms.
- All the other materials are for use in the exam room. Make sure you store them safely until the day of the exam and that your invigilators know what each item is for.
